

intY Integrated Online Services

Managed online communications, collaboration and productivity suite

Using hosted online applications or **Software-as-a-Service (SaaS)** enables your organisation to work more flexibly and be more productive, while still providing feature-rich applications-without the IT overhead or upfront capital costs.

intY are one of a handful of Microsoft partners with an ability to integrate their own applications with the Microsoft Business Productivity Online Suite (BPOS).

An **intY Integrated Online Services** solution can consist of combinations of the following services:-

- Microsoft Exchange Online
- Microsoft SharePoint Online
- Microsoft Live Meeting
- Microsoft Office Communications Online
- intY MailDefender
- intY MailDefender Email Archive
- intY WebDefender Enterprise
- intY Enterprise Support
- intY Connectivity

As an intY Agent Grade can provide a one-stop shop for intY Integrated Online Services with:

- * Email, calendar, contact management
- * Collaboration and sharing tools
- * Security for web surfing & e-mail

Online Components

Microsoft Exchange Online

Provide employees access and the ability to share e-mail, calendar, and contacts from virtually anywhere, at any time, on desktops, laptops, and mobile devices, improving communications and productivity. Exchange Online can be rapidly deployed, flexibly expanded, and is designed to be securely administered using a powerful yet easy-to-use Web-based console. Exchange Online is offered with intY MailDefender to provide unrivalled email protection from all email borne threats without incurring any ongoing maintenance overhead.

Microsoft SharePoint Online

Share documents, contacts, calendars, and tasks in a single location. Based on Microsoft Office SharePoint® Server 2007, SharePoint Online delivers rich collaboration capabilities that enable team members to flexibly and efficiently collaborate, find organisational resources, search your intranet site, and manage content and workflow.

Microsoft Office Live Meeting

Connect with colleagues and customers through real-time meetings, training sessions, and events using only a PC with an Internet connection. Hosted Web conferencing services from Microsoft Office Live Meeting give your employees the power to collaborate wherever they are, to set up project meetings, brainstorm ideas, and collaborate on whiteboards without the cost and hassle of travel!

Microsoft Office Communications Online

Enable users to find and rapidly connect with the right person from the applications they use most. Office Communications Online provides streamlined access to rich presence and instant messaging capabilities that are centrally managed by IT, and work seamlessly with a range of Microsoft Office system programs.

Partner

intY Integrated Online Services

What can be added?

As an Agent of intY Integrated Online Services, we can provide all of your security and connectivity needs as a simple add on to your Microsoft Online Services, removing the need to buy from multiple vendors.

All your IT resources from one vendor, simple!

intY MailDefender

E-mail security is a core constituent of the **intY Integrated Online Services** solution. Email is now a business critical application for many businesses and when their email performs badly, so do they.

MailDefender provides unrivalled email protection from all email borne threats without requiring an investment in hardware or software, or incurring an ongoing maintenance overhead

intY WebDefender Enterprise

WebDefender Enterprise is a best in class web access policy control system for the control and management of employee web access, and is delivered as a Software-as-a-Service (SaaS) solution.

It puts the administrator back in charge of how internet resources are used whether the employees are office based or mobile workers.

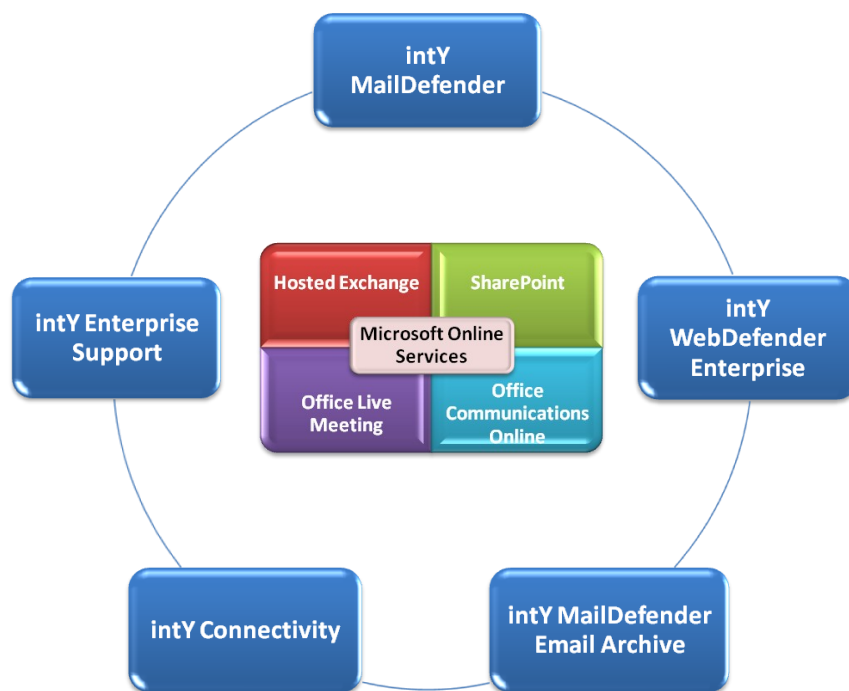

intY MailDefender Email Archive

intY MailDefender Email Archive is a scalable and secure hosted solution to provide a reliable offsite storage facility for all your emails.

Archiving instantly ensures you are compliant with regulatory demands. It can be enabled within hours and integrates fully with Microsoft Exchange Online.

www.intY.com

intY Connectivity Solutions

We offer a range of solutions including ADSL, leased lines and Non-Stop Broadband which provides you with automatic 3G broadband failover. When your internet goes down it switches to a 3G connection so your business always remains online.

intY Enterprise Support

We provide full support for all of your services, including Prince2 project management of your migration to provide you with a non-stop service.

Microsoft SharePoint additional storage

Microsoft SharePoint Online Extra Storage gives your business the flexibility to acquire additional storage at 1 GB increments. The additional storage will be added to your company wide storage pool and can be assigned to any of your enabled site collections.

Microsoft BPOS Blackberry support (BES)

For customers whose remote users are equipped with Blackberry PDAs, this option allows such remote users access to Exchange Online via their hand-sets.
